

Technology Commercialization and Facilitation Agency (TCFA) @ KIIT-TBI

KIIT-TBI is one of the few Technology Business Incubators in the country, identified by Technology Information, Forecasting and Assessment Council, Government of India (TIFAC) as a 'Technology Commercialization and Facilitation Agency (TCFA)' to facilitate Innovators to commercialize their technologies. This support is under the 'Technology Refinement and Marketing Assistance (TREMAP) programme of TIFAC.

The TCFA invites interested innovators who have developed a potential technology, which has reached the proto-type stage. The programme is designed to explore innovative products which can be technologically commercialized through technology transfer. The platform will explore possibility of technology transfer or formal licensing of indigenously developed new technology to third parties under the guidance of professionals. The objective of the programme is to facilitate linkages of developed products and innovative technologies with market.

KIIT-TBI has a system in place for early assessment of a technology's marketability as well as access to financial, marketing and operational skills to link it to the market.

KIIT - TECHNOLOGY BUSINESS INCUBATOR

PROPOSAL SUBMISSION FORMAT UNDER TREMAP THROUGH TCF FOR CONSIDERATION

- 1.0 Title of the Proposal:
- 2.0 Name of the TCF:
- 3.0 Activities of Stage 1 (to be pursued by TCF before submitting the proposal)

Checklist (If any of the activities as given below is incomplete proposal need not be submitted)

Sr. No.	Activities	Status (Yes/No)	Remarks / comments, if any
1.	*Demonstration and review of the technology before TCF expert group (comprising of domain experts from technology area and industry expert / manufacturer / industry representative)		
2.	**Detailed professional IPR search		
3.	***Assessment of initial commercial viability (written feedback on questionnaire to be taken from manufacturers / industries manufacturing same or similar products or from industries for which technology is applicable / useful)		
4.	****Signing of Non Disclosure Agreement (NDA) and commercialization agreement with the innovator		

*Attach as extra sheet for written comments/suggestions/views of expert group on technical and business/market aspects/prospects of technology/product

** To be included in the proposal

*** Written feedback to be enclosed with the proposal

**** Photo copy to be enclosed with the proposal on Rs.100/- non judicial stamp paper

4.0 Details of Innovator:

- Name:
- Qualification

- Occupation
- Date of Birth
- Nationality
- Correspondence Address
- Tel:

Mobile No:

5.0 **Detail of Technology Innovation:**

- 5.1 Title of technology/product developed
- 5.2 Background and status of the technology
- 5.3 What is the innovation and its application
- 5.4 Is the innovation based on a new concept, altogether or improvement of well established technology/product
- 5.5 Working Mechanisms of technology/product: please mention how the innovation breaks with conventional ideas or process in its filed (Basic principle/science/working mechanism)
- 5.6 Diagram/sketch/photographs of technology/product
- 5.7 Product specifications (dimensions / capacity / productivity / efficiency /
Whichever are applicable?)
- 5.8 Tentative cost of the technology/product
- 5.9 How the innovation is a clear improvement over what already exists or what is already meeting customer's need
- 5.10 Does your innovation improve quality of life, enhance efficiency or productivity or protect the environment? If yes, how?
- 5.11 Details of performance, testing/trials/demonstrations under undertaken and results thereof
- 5.12 Similar /competitive products/technologies available in the market, their cost & performance comparison with your product.
- 5.13 Are you aware of any competitors or others working on/ or who have introduced a similar innovation? If so, how is your innovation different/better from theirs?

6.0 **Patent Details** (please attach copies of patent application / granted certificate and other relevant documents)

- a) Patent Title
- b) Year of filing / grant of the patent
- c) Patent filing / grant number
- d) Any other patent applied/granted outside (give number and detailed status)
Application/use
- e) What may be the expected challenges from other technologies related to patent rights, if any?
- f) Detailed IPR search reports of giving patent number title, country, technology brief, applications, use etc. and how the proposed technology is different from each of above (technology, working, process, product and performance wise)

7.0 **Initial Commercial Viability:**

- a) Does the innovation address a new or existing market
- b) User segment for this product/technology (some preliminary information)
- c) What is the present market scenario and trends in the related field (some preliminary information)

- d) Major players (industries) in this field
- e) Name and contact details of the interested agencies/industries/manufacturers, which have shown interest in the technology/product (attach related documents (feedback) and other credentials obtained from interested industries/manufacturers/users)

8.0 Activities and Budgetary Details - For Stage - II

(Note: Before preparing the budgetary details it is essential that TCF should talk to some agency/company regarding the realistic costs and time duration for market survey, business plan etc. Also note that the maximum budget sanctioned for Stage -II for the below Activity-time -cost Chart will be upto 5 lakhs only and for total time duration of 3-6 months. For details about different stages please refer guidelines)

Activity - Time - Cost Chart

Sr. No	Activities	Justification for proposing the activity	Time Duration	Agency (who will do it)	Budget (Rs.)
1.					
2.					
3.					
	Grand Total		Total time not to exceed 3-6 months		Total budget not to exceed 5 lakhs

Note: TCF to mention the Specific activities to be performed

9.0 Any other information which TCF would like to share with TREMAP Committee
